Infor System21

Get new capabilities with Infor 10x

Extend the value of your Infor® solution and take advantage of technologies that can change the way you work with Infor 10x, the latest release of Infor's proven business applications. You get access to new capabilities in the areas of social business, mobility, analytics, and integration. You also benefit from major enhancements across Infor's core product lines, including Infor System21.

Experience the new Infor System21

Extend your capabilities, get a new look and feel, and take advantage of enhanced industry-specific functionality with the latest release of Infor System21, which expands the core capabilities of this solution in a number of key ways, including:

- **Infor ION enablement,** allowing for simplified integration with both Infor and non-Infor applications. You can extend the value of your Infor System21 solution with best-in-class solutions from Infor, giving you new ways to build competitive advantage.
- **Access to Infor ION Pulse,** a flexible, lightweight messaging system that contains built-in logic to allow intelligent, functional connections that make your business software systems work together more effectively. You can read and respond to ION Pulse messages through Infor Motion ActivityDeck, either from your desktop or your mobile device.
- **A new, modern user interface,** which gives users a familiar environment that increases productivity, lets employees easily find the information relevant to their jobs, and even have data delivered automatically to them in context. Once you experience the new interface, you won't be able to imagine how you ever worked without it.

Infor 10x represents the evolution of our technology platform, which features purpose-built middleware, as well as social, mobile, analytics, and cloud solutions.

- **Single-instance global deployments,** for greater flexibility and lower cost of ownership.
- **Access to Infor Ming.le™,** a comprehensive platform for social collaboration, business process improvement, and contextual analytics. You get the most innovative social collaboration technologies translated into a business environment and fully integrated across business processes.
  From collaborating alongside your Infor System21 solution to "following" people and objects, you'll solve problems and get work done in ways you never thought possible.
- **Enhanced reporting and analytics,** providing greater visibility and a single version of the truth across your organization.

Increase the value of your solution and make the most of your maintenance investment by upgrading your Infor System21 solution.
