Infor Workspace

Simplify your work day.

There's no substitute for having the right information at your fingertips. Every time you have to "swivel" between business applications to gather information for making decisions, your work day gets slower and less productive. Today you expect user-friendly online experiences when you shop or use social media; why can't you expect the same intuitive usability from your business applications? Now you can—Infor™ Workspace delivers a consumer-grade user experience that unifies business software so that you can always have all the information you need, where and when you need it.

Get a fresh new view of business information.

Thousands of customers trust Infor for industry-specific business software that helps them stay competitive. We've focused our decades of business experience on delivering the user experience you need to succeed in today's volatile, high-speed business environment. That's why we built Infor Workspace to serve as the user interface and unifying fabric of our most popular products—it brings a great look and feel and exceptional usability to some of the most powerful business software available, so that you get solutions that give you information quickly and add value permanently.

See better information sooner.

You have information hitting you from all angles, every day. To follow up on any of that information, you have to visit dozens of places to find what you need, and log on to every one of them individually. Then you have to guess your way through a maze of software to do something about it.

Get all the information you need, where and when you need it with Infor Workspace.

Infor Workspace uses in-context business intelligence in the user experience so that you automatically see the relevant information you need to see when you need to see it. When you are taking that order, you will see information relevant to that task, such as the customer order history, payment status, or any special promotions to offer. You'll be getting the most up-to-date, accurate, and relevant information possible to make not just quicker decisions, but better decisions.

With Infor Workspace you get:

- Consumer-grade user experience. One sign-on, common navigation, and common look-and-feel across all Infor applications means you can get to work quickly.
- Personalized tools. Add the web parts and information you need to get your job done.
- A single source of information. Workspace aggregates business information from multiple sources, including Infor solutions, your Intranet, and Internet resources, and presents it to you in a logical fashion—when you need it.
- Context-aware data. Get the right information, at the right time, so you can make informed decisions more quickly.

Be ready to take action.

Now you can have a way to manage multiple priorities with singleminded focus so that you can identify your goals and know how to move closer to them every day. Infor Workspace helps you to:

- Make better decisions, faster, with in-context business intelligence.
- See all the information you need in one place.
- Navigate quickly across applications, thanks to a common user interface.
- Make your Workspace your own. Add the web parts you need to bring your information together.

You no longer have to go digging for relevant information at critical moments—Infor Workspace gives you a system that alerts you soon enough to take the right actions in time to make a difference.
