Infor Lawson

Get new capabilities with Infor 10x

Extend the value of your Infor® solution and take advantage of technologies that can change the way you work with Infor 10x, the latest release of Infor's proven business applications. You get access to new capabilities in the areas of social business, mobility, analytics, and integration. You also benefit from major enhancements across Infor's core product lines, including Infor Lawson.

Experience the new Infor Lawson

Support growth strategies, get access to new functionality, and put information at your fingertips with the latest release of Infor Lawson, which expands the core capabilities of this solution in a number of key ways, including:

- **New product functionality** in areas such as AP invoice automation, close management, reconciliation management, and cash and treasury management. Additional enhancements focus on completing the applications with user-driven features to deliver a lower total cost of ownership.
- **Expanded global capabilities and localizations** that give you a strong, flexible finance model capable of supporting global growth, while providing visibility across all areas of your business and allowing you to easily meet local reporting requirements.
- **Additional mobile applications** that allow for key workflows on the go and deliver the right information, at the right time, in the right place, to the right people.
- **New product integrations** that give you opportunities to extend the value of your Infor Lawson solution with best-in-class solutions from Infor.

Infor 10x represents the evolution of our technology platform, which features purpose-built middleware, as well as social, mobile, analytics, and cloud solutions.

- **Expanded industry analytics** that enhance compliance measures and combine pervasive, embedded business intelligence with core workflows and transaction business processes.
- **An optimized user interface and enterprise search capabilities through Infor Ming.le™,** a comprehensive platform for social collaboration, business process improvement, and contextual analytics. You get the most innovative social collaboration technologies translated into a business environment and fully integrated across business processes. From collaborating alongside Infor Lawson to "following" people and objects, you'll solve problems and get work done in ways you never thought possible.

Increase the value of your solution and make the most of your maintenance investment by upgrading your Infor Lawson solution.
