Facts at a glance

Products: Infor® LN
Industry: Industrial Manufacturing
Country: India

"Infor LN is a win-win for us. The purchase costs were low, and we've seen a high return on investment."

—Shrikant Pophale, chairman, SRP Electonica Group

About the company

Electronica Tough Carb Limited, an SRP Electronica venture company, is a leading global supplier of tungsten carbide products for the oil and gas industry and metal forming, metal cutting, mining, and construction applications. Electronica Tough Carb Ltd. is a pioneer organization in providing a head to tail solution for a wide range of tungsten carbide tools. To learn more, visit www.toughcarb.com

Challenges

- Reduce IT costs by replacing the current enterprise resource planning (ERP) system.
- Implement tighter inventory controls with more efficient utilization of raw materials.
- Close financial books faster and more accurately.
- Drive better decisions based on consistent and accurate system data.
- Increase productivity and reduce training costs with an improved user interface.
- Support end-to-end manufacturing processes and costing with an easy-to-use system.

Benefits

- Reduced total cost of ownership compared to the previous ERP system.
- Improved inventory control and achieved order-to-order material balance.
- Reduced the amount of time required to close financial books and improved accuracy.
- Gained better insight and improved management decision-making with more timely and consistent information.
- Experienced fewer disruptions and gained better inventory control with simplified and more accurate data entry.
- Increased efficiency with smoother operations overall.

"Infor responded promptly to our requirements. We're very pleased with Infor LN's smooth implementation and ease of use."

—Shrikant Pophale, chairman, SRP Electronica Group
