Customer Profile

LTH Castings benefits from lower total cost of ownership with Infor Automotive

Facts at a glance

Solution: ERP
Products: Infor Automotive Industry Suite, Infor LN, Infor Automotive Exchange, Infor ION
Industry: Automotive
Country: Slovenia

About the company

LTH Castings was founded in 1948, and has production sites in Škofja Loka and Ljubljana in Slovenia, Benkovac in Croatia, and Ohrid in Macedonia. LTH manufactures a wide range of complex, specialized aluminium and magnesium automotive components for engine transmissions, steering, and braking system functions. With a high level of customer-specific requirements and an in-house tool shop, LTH Castings is involved in projects from the earliest stages of engineering, in order to respond rapidly to changing customer preferences.

Challenges

- Upgrade the existing core ERP system to a flexible, scalable solution suite specifically designed to help the company better compete in the automotive industry.
- Replace a cumbersome in-house system with a light-weight middleware solution that is simpler to use and more capable of handling large amounts of data.
- Upgrade processes and software to maintain profits and grow the business.
- Add automotive-specific functionality without extensive, costly customizations.

Benefits

- Provided global visibility and communication across the supply chain by a single EDI solution.
- Increased control over the entire organization—from sales to production to finance—with Infor™ Automotive's wide range of automotive-specific functionality.
- Managed automotive-specific demand and shipping, and handled trading partner mandates.
- Enabled the feed of demand changes instantly throughout the production and procurement processes.
- Provided all users with access to up-to-date information with a robust connection between both systems that allows mutual updates.
- Delivered an increased level of support while simultaneously removing the need for resource-intensive proprietary customizations.

"With the Infor Automotive industry suite, we have a fully integrated solution without complex interfaces and redundant data. Our EDI processes, our logistical processes, and our communication with customers has been simplified."

—Lado Tomse, IT Manager
