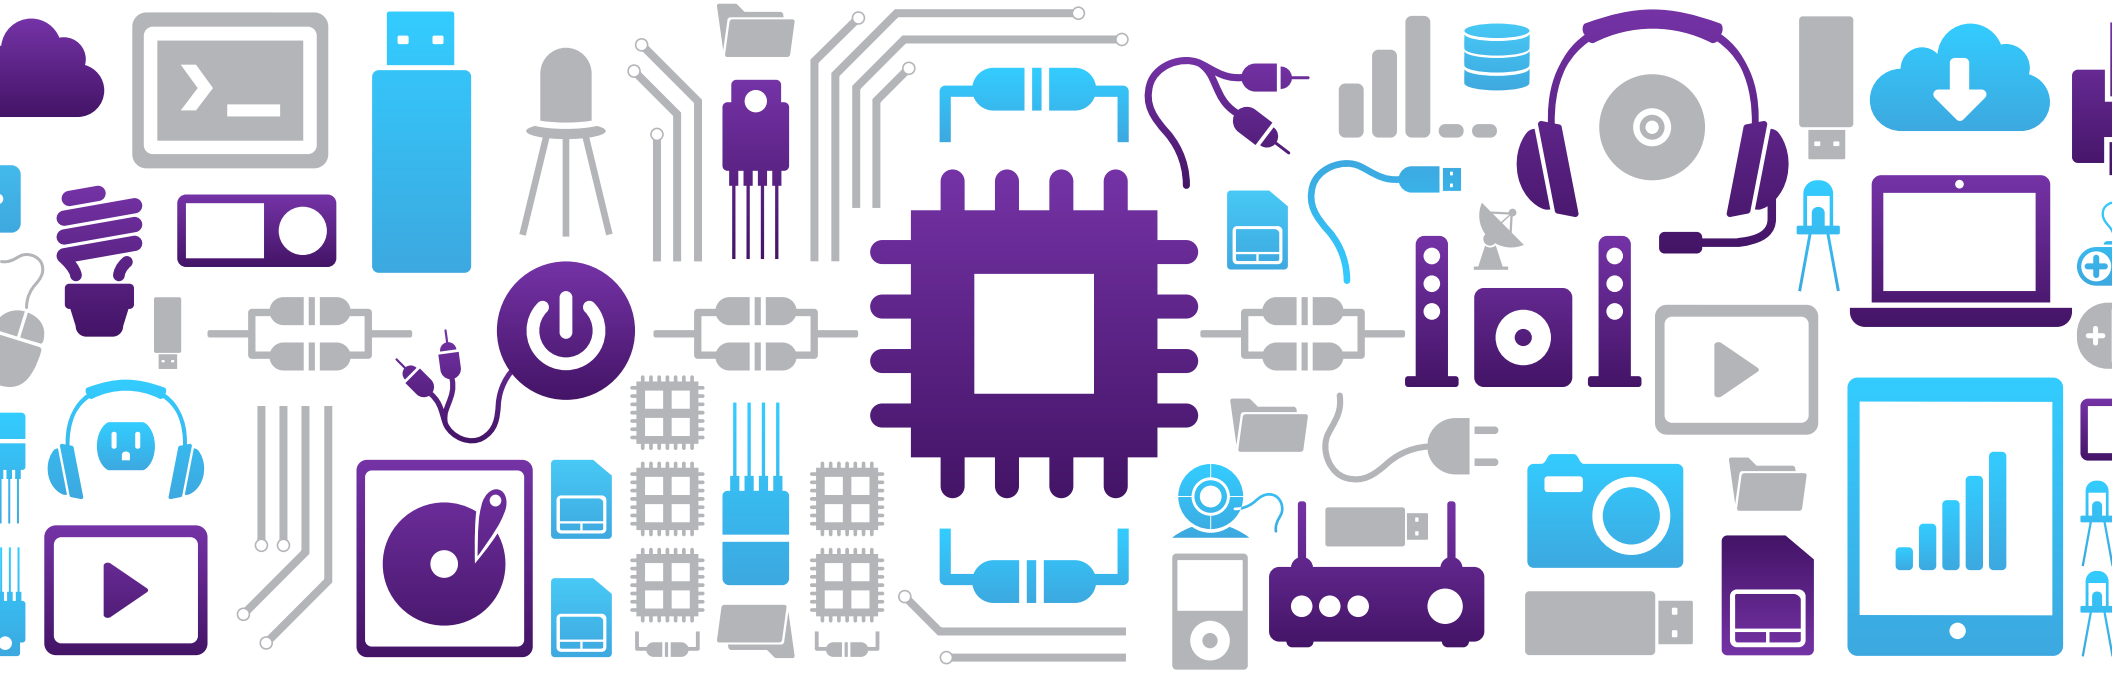
Infor High Tech & Electronics

Quick Guide



With Infor High Tech & Electronics, you get a purpose-built, comprehensive suite of solutions with industry capabilities built-in.

Specialized tools

- Optimize your supply chain.
- Get products to market faster.
- Respond faster to market changes and customer demands.
- Shorten product delivery time.
- Reduce operational costs.
- Differentiate products with value-added services.
- Collaborate with customers and suppliers in real time.

For your industry

Industry-specific capabilities available in the cloud or on-premise, including tools for: managing the complexities of mass customization and new-product introduction, aftermarket service, warranties, demand and supply, and customer relationships; controlling costs; and implementing a collaborative environment with both customers and suppliers.

- A modern solution with a beautiful new user experience, an enterprise collaboration framework, and industry-specific analytics embedded through user-defined process flows.
- Over 30 years of experience in the high tech and electronics industry built in.
- In use by more than 5,500 high tech and electronics companies around the globe.
