

Know what you have and where you have it, immediately, by combining the power of Infor Barcode with Infor Hansen Asset Management.

INFOR BARCODE AND INFOR HANSEN ASSET MANAGEMENT

DO BUSINESS BETTER.

In a government agency, you already have plenty of paperwork. You're also responsible for vast collections of material assets and the parts inventories required for maintaining those assets. Inventory management seems like a mundane task, but it's important and you need to do the job thoroughly to maintain complete accountability. You also need a way to be sure that you're not purchasing material that you already own but can't find. Above all, you'd rather do it all without generating a whole new mountain of paperwork.

LEVERAGE EXPERIENCE.

Infor Public Sector solutions, like Infor Hansen Asset Management, are built exclusively with government agencies in mind. We've designed our public sector software by drawing on the 25 years of experience we've accumulated in serving governments and municipal agencies around the world. By combining the public sector history of Hansen with Infor's cutting-edge business experience, we bring the best practices of the world's most successful organizations and apply them to help your agency run like clockwork.

GET BUSINESS SPECIFIC.

You need to know what you have and where you have it, immediately. When accountability matters most, you can't afford the risk or distraction of potential paperwork slip ups. And you usually can't hire extra staff to make extra sure that you've made a full accounting of every item for which you're responsible. Infor Barcode streamlines the entire process of accounting for material receipt, storage, and delivery. With a paperless material receipt and accountability process, you not only get a more accurate inventory, you save the time you would otherwise waste trying to find the material you need and getting it to the people who need it.

Infor Barcode combines with Infor Hansen Asset Management to deliver world-class material management to everything from the smallest local government agencies to the largest state and federal departments.

With Hansen you get detailed asset inventories to manage all your government assets including:

- ▶ **Plant**—Facilities, equipment, vehicles.
- ▶ **Sewer**—Mains, manholes, service lines, nodes, lift stations.
- ▶ **Water**—Mains, valves, meters, hydrants, service lines, water nodes, wells.
- ▶ **Streets and Roadways**—Segments, signals, signs, lights, trees, landscape, intersections, bridges.
- ▶ **Storm**—Channels, inlets, mains, manholes, culverts, storage basins.
- ▶ **Parks**—Buildings, equipment, trees, playground equipment, sports complexes.
- ▶ **Railway**—Equipment, tracks, signals, signs, yards.
- ▶ **Customer Service**—Service request management.

You get a warehouse and parts inventory management module that manages everything from ordering to issuance. You also get support for the planning, operation and tracking of daily warehouse activities with Infor Hansen's parts inventory modules. The material management module also allows advanced warehouse transactions.

SEE RESULTS NOW.

Integrate Infor Barcode with Infor Hansen Asset Management, and your warehouse and maintenance organizations gain instant, flawless control over all the parts and material inventories you need to operate efficiently and serve citizens effectively every day. By optimizing your inventory management, you'll also cut down on confusing paperwork and improve your responsiveness at a lower cost.

THERE IS A BETTER WAY.

At Infor, we work with a core belief. We believe in the customer. We believe that the customer is seeking a better, more collaborative relationship with its business software provider. And a new breed of business software: created for evolution, not revolution. Software that's simple to buy, easy to deploy and convenient to manage. Our 70,000 customers in more than 100 countries stand with us. We look forward to your sharing in the results of our belief. There is a better way. For additional information, visit www.infor.com.
