

System i

➔ Infor ERP System i solutions continue to innovate—helping you achieve new levels of performance, flexibility, customer service, and growth.

Do business better.

Manufacturing in today's environment brings a whole new set of challenges. For years, the mantra for efficient production was "do more with less" as manufacturers worked to keep pace with increasing customer demand and pressures to produce better, faster, and cheaper than anyone else. Today it seems the opposite is true—less demand, lower volumes, and the costs of doing business continue to mount. All the more reason to have an ERP system and extended solutions that work as hard as you do, deliver reliability, efficiency, unprecedented performance—and prepare you for brighter days ahead.

Leverage experience.

Infor™ has more than 25 years of experience in developing, selling, implementing, and supporting enterprise solutions for the IBM® System i platform—and our customers benefit every business day. More than 14,000 process, discrete, automotive, and apparel manufacturers count on us to help them meet their toughest challenges with Infor ERP solutions developed specifically for their System i platform. Also developed specifically for them are extended solutions like Enterprise Asset Management, Performance Management, Customer Relationship Management, and more. Thousands of experienced professionals on our global team deliver optimum services to help our customers make the most of their investment.

INFOR™

Get business specific.

Combined with IBM hardware and the IBM i operating system, Infor ERP System i solutions deliver outstanding performance at outstanding value to any manufacturer.

Infor ERP System i solutions provide:

- **Reliability**—Infor and IBM are two of the most trusted names in B2B technology today. You get the best of both companies in our solutions built for the System i platform.
- **Security**—Running on the System i platform, our solutions are virtually virus-proof, so you don't have to worry about downtime or any other impediments to optimum system perform 24x7.
- **Low total cost of ownership**—Rapid implementation coupled with non-disruptive upgrades deliver a total cost of ownership that is typically lower than 1% of a company's sales revenue.

In addition to ERP applications, Infor extended solutions encompass the full range of integrated functionality you need to do business better at every level of your enterprise:

- **Financial Management** designed specifically for the unique challenges of operating multiple locations
- **Performance Management** for managing your business against your strategic goals
- **Supply Chain Management** for creating a more collaborative environment for you and your suppliers
- **eCommerce Tools** for doing business seamlessly with customers and suppliers 24x7
- **Customer Relationship Management** to help you enhance your service levels at every customer touchpoint

We also offer Infor Flex, a groundbreaking package of software, services, and financing that gives our maintenance customers low-risk options to upgrade to the latest version of our solutions or exchange to another Infor product. It means an easy path to the future for our System i customers. Infor Flex enables customers to leapfrog to new levels of business agility and functionality at a lower cost and lower risk than the rip-and-replace approaches of other vendors.

See results now.

Our dedicated global System i team of more than 100 professionals act as a concierge for your System i solutions, ensuring you get a system that meets your business needs and provides a pathway to future growth. From sales to implementation to comprehensive customer service throughout the lifecycle of your investment, our team ensures results you don't have to wait for:

- ROI in a year or less
- Faster response time
- Minimized training
- Maximized productivity
- Lower costs
