Infor Implementation Accelerator for Healthcare

One size doesn't fit all

You can't meet the unique needs of the healthcare industry with generic software that treats all industries equally. At Infor®, we understand that the healthcare industry isn't like any other industry.

So, we've created software that's tailored to the specific needs of this industry. We believe that one size fits one.

Infor Healthcare includes all the capabilities to manage the healthcare lifecycle built-in, not bolted on. So what does that mean for you? Faster deployments and fewer modifications. You get up and running more quickly, with fewer disruptions to your organization.

Our solutions for hospitals and health systems connect people and technology to help you capitalize on talent, streamline your supply chain, plan more effectively, reduce costs, integrate disparate systems, and access information more easily—all with the ultimate goal of improving patient care.

With Infor Healthcare solutions, you'll be able to connect and align your organization's business processes and data across human capital and talent management, supply chain, and enterprise financials with solutions built for healthcare. These solutions represent the rich legacy of Lawson Healthcare—and more than 25 years of serving the technology needs of healthcare organizations.

Find specific solutions to immediate needs

Infor builds and implements software based on decades of industry-specific experience and first-hand knowledge of what makes a healthcare organization successful. Infor Implementation Accelerator for Healthcare embodies that experience by providing highly focused, pre-built content you can use to rapidly create a solid business solution, while delivering a variety of outputs, including educatonal videos and operational dashboards, to monitor the pulse of your

Get your business up and running quickly, reduce implementation risk, and build a foundation for continuous improvement with Infor Implementation Accelerator for Healthcare.

healthcare organization. It offers the functionality you need to get up and running quickly, along with all the features and functions mid-sized healthcare companies need.

By reducing the internal effort and complexity of deploying the Infor Lawson application suites—Infor Lawson Enterprise Financial Management System, Infor Lawson Supply Chain Management, and Infor Talent Management—Infor Implementation Accelerator reduces risk and accelerates your time to value.

Implement faster, benefit sooner

Infor Implementation Accelerator delivers predefined but easily configurable menus, processes, templates, training, and much more—using examples specific to the needs of mid-sized healthcare companies. All are based on industry best practices and extensive industry expertise. With Infor Implementation Accelerator for Healthcare, you can put comprehensive core functions to use right away without reconfiguration.

Infor Implementation Accelerator can deliver the value and benefits of the integrated Infor Healthcare solution faster and more cost-effectively than many full-blown implementations using traditional implementation techniques.

This focused, flexible solution gets your healthcare organization up and running quickly, delivering:

- **Quick implementation**. By pre-configuring a significant number of core processes, the Infor Lawson application suites are flexible enough to adapt to your unique requirements.

- **Industry best practice processes**. Infor Implementation Accelerator is based on the experience Infor has gained from hundreds of projects.

- **Reduced implementation risk and stress for employees**. With Infor StepWise methodology to refine your preconfigured solution proposal step by step, fewer personnel need to be involved in developing the project scope and implementing the solution. Instead, you can focus on helping your users become proficient in the Infor Healthcare applications.

- **A foundation for future success**. Infor Implementation Accelerator is ideal for organizations that want to implement Infor Healthcare applications rapidly and easily, but envision growth ahead and need long-term scalability and continuous improvement.

- **Lower overall total cost of ownership**. With Infor Implementation Accelerator, your Infor Healthcare solution can be less costly, less risky, and deliver faster time to benefit.

Get lasting results

Infor Implementation Accelerator for Healthcare can be your final step—or your first step—in an on-going process of continuous improvement. As your healthcare organization changes and grows, it's easy to expand the

Get leading industry practices and business processes preconfigured for your industry with Infor Implementation Accelerators.

scale and scope of your Infor Healthcare solution and integrate it more fully with other applications by:

- Growing from one or a handful of sites to a national health delivery organization using the multi-division, multi-site capability of Infor Lawson Enterprise Financial Management, Infor Lawson Supply Chain Management, and Infor Talent Management

- Adding Infor Enterprise Performance Management, Infor Healthcare Revenue Cycle Management, Infor EAM Enterprise, and Infor Cloverleaf integration and Information Exchange Suite functionality

- Increasing the complexity and scope of your Infor investment with other critical back-office applications

When you have to ensure the highest quality of care, and respond immediately to new regulations and patient expectations, Infor Implementation Accelerator for Healthcare is simply the best choice for you today.
