

From small shops to multi-plant complex manufacturing environments, Infor Barcode facilitates operational efficiencies.

## INFOR BARCODE: SHOP FLOOR

### STREAMLINE THE SHOP FLOOR.

ERP systems are powerful, complex, stringent, and typically transaction-based. While it is vital for a company to have a sound ERP system—like Infor™ ERP—as a backbone, these systems alone often cannot accommodate the demands in a hyper-competitive environment requiring agility. And that's where Infor Barcode comes in. Infor Barcode's mobile solutions for Infor are a solid match for many manufacturers in today's complex extended enterprise world. Infor Barcode facilitates operational efficiencies by focusing on three areas:

- ▶ **Simplifying:** The complexity of screen-based reporting and the days of many, time-consuming transactions are gone. With Infor Barcode's device-based solution, multiple transactions are "compressed" into one simple screen
- ▶ **Automating:** The Infor Barcode solution eliminates manual data entry with its mobile scanning functionality that passes real-time information from the shop floor to your Infor ERP
- ▶ **Eliminating:** Labor reporting errors and inventory inaccuracies are reduced or eliminated completely by incorporating the Infor Barcode solution with your Infor solution

## KEY FUNCTIONALITIES:

- ▶ Patented, two-phase commit technology
- ▶ Fully integrated
- ▶ Web-based admin tool
- ▶ Real-time updates and field-level validation
- ▶ Hardware independent
- ▶ Customized parameters and tolerances
- ▶ Quick implementation and fast, simple training
- ▶ Drop-down lists and function key configurability
- ▶ Multi-lingual support
- ▶ Multi-company, site

## BENEFITS:

- ▶ Effortlessly create production orders
- ▶ Report operation completion by a simple scan
- ▶ Backflush both material and time, record production by shift, display a session to show production history
- ▶ Record reject reason codes against the individual operations
- ▶ Report production orders if the last operation is reported as complete
- ▶ Create and print sub-contract purchase orders during the operation transaction
- ▶ Report production order completion
- ▶ Receive shop floor orders
- ▶ Cross-dock based on a powerful parameter table
- ▶ Print move tickets
- ▶ Capitalize on lean features as Kanban requests, report production without production orders, and inter-company purchasing
- ▶ Enjoy enhanced distribution and warehouse management further simplifying tasks

## THERE IS A BETTER WAY.

At Infor, we work with a core belief. We believe in the customer. We believe that the customer is seeking a better, more collaborative relationship with its business software provider. And a new breed of business software: created for evolution, not revolution. Software that's simple to buy, easy to deploy and convenient to manage. Our 70,000 customers in more than 100 countries stand with us. We look forward to your sharing in the results of our belief. There is a better way.
