

With its real-time robust features, Infor Barcode's warehouse management system—WMS Lite—can maximize your business processes while keeping pace with industry trends and automating your warehouse.

## INFOR BARCODE: WMS LITE

### MAXIMIZE AND EXTEND YOUR ERP SOLUTION.

Infor™ Barcode unlocks the inherent power of inventory and distribution functionality within your Infor ERP solution. By expanding and enhancing that functionality, manufacturing operations can more effectively meet their warehousing needs within the original ERP application without interfacing to cumbersome third-party warehouse applications. Infor Barcode's warehouse solution enables users to:

- ▶ Lower inventory
- ▶ Reduce labor costs
- ▶ Effectively utilize storage capacity
- ▶ Increase inventory accuracy
- ▶ Improve customer service

### KEY FUNCTIONALITY:

- ▶ Driven by mobile wireless and static data capture barcode technology
- ▶ Full, real-time integration with your ERP
- ▶ Standard functionality in the areas of receiving, put-away, cycle count, physical inventory, cross-docking, and shipping

- ▶ User-friendly, web-based administration tool set
- ▶ Requires no extensive customization
- ▶ Real-time updates and field-level validation

## **BENEFITS:**

- ▶ Define storage characteristics for each location and item to include both velocity and volume
- ▶ Designate 'home' locations that need replenishment from normal or overflow on a regular basis
- ▶ Utilize 'location sizes' to calculate the approximate location capacity without having to figure each item individually
- ▶ Allow your employees to focus on "hot picks" instead of tedious paperwork
- ▶ Utilize features to manage partial picks, location substitution, and out-of-stock conditions
- ▶ Benefit from the built-in integration with third-party freight systems such as UPS WorldShip™
- ▶ Enhance the picking process with wave picking for sales & replenishment orders
- ▶ Minimize 'wandering' fork lift operators with zone picking and assigned drop locations
- ▶ Define wave picks to allow for logical, efficient shipments
- ▶ Enjoy embedded, standard functionality in receiving, put-away, cross-docking, picking, shipping, location management, physical inventory, and cycle count

## **THERE IS A BETTER WAY.**

At Infor, we work with a core belief. We believe in the customer. We believe that the customer is seeking a better, more collaborative relationship with its business software provider. And a new breed of business software: created for evolution, not revolution. Software that's simple to buy, easy to deploy and convenient to manage. Our 70,000 customers in more than 100 countries stand with us. We look forward to your sharing in the results of our belief. There is a better way.
