

Warehouse Management Portal

➔ Gain better visibility, mobility, and partner self-service by adding the Infor SCM Warehouse Management Portal for web-based access to real-time warehouse information.

Do business better.

Your business doesn't just have a network—your business is a network. The responsiveness and agility that you build into your supply chain can be the key to top performance. By giving your suppliers, customers, and trading partners a fully web-based connection to warehouse, inventory, and order information, you'll streamline the route from your suppliers' suppliers to your customers' customers. You'll also realize powerful improvements in collaboration and gain best-in-class results.

Leverage experience.

Infor™ SCM Warehouse Management draws on our unparalleled experience at every aspect of supply chain management, including software, support, and operational expertise. Our customers run some of the most successful and sophisticated supply chain operations on earth—many of those firms are the envy of businesses worldwide for the massive efficiencies and economies they generate through best-in-class supply chain systems driven by the power of Infor solutions. While we'd never divulge the operational secrets of any of our customers, you can bet that the secret behind some of the world's most envied supply chain success stories is Infor SCM Warehouse Management.

Get business specific.

Give your suppliers, customers, and other partners a direct, web-based connection to your warehouse information with Infor SCM Warehouse Management Portal. In addition to gaining faster service and better overall co-ordination, you'll give all of your stakeholders better visibility into the information they need to take effective action and make sound decisions. It's a powerful and comprehensive solution that delivers:

- Access to consolidated global inventory balances from anywhere
- The ability to create documents remotely, including ASNs, purchase orders, and shipment orders
- Online input and remote printing capabilities
- Online order fulfillment status
- Real-time enterprise inventory visibility

You will eliminate duplicated effort by allowing your trading partners to enter transactional information directly on your system, rather than by sending cumbersome fax based orders that your staff has to key in manually.

Your trading partners will be able to search for inventory, then sort, filter, and download information for easy analysis. With finely detailed information including product codes, batch details, order status, and more, everyone in your supply chain will be positioned to work more efficiently.

Optional mobile capabilities. Today everyone expects the speed and convenience of mobile access for transactions of every kind—it's time to give your warehouse system those same powerful features. The optional mobile features of Infor SCM Warehouse Management Portal delivers full control of warehouse transactions within the familiar Windows Mobile™ platform for maximum accessibility.

Robust security. To restrict the availability of sensitive data, Infor SCM Warehouse Management Portal lets you set sophisticated rules for access by assigning access according to individual login, groups, warehouses, owner, or item categories.

See results now.

It's time to take your next step toward the supply chain of tomorrow. Infor SCM Warehouse Management Portal expands the power of your Infor SCM Warehouse Management System by giving your trading partners the rich, real-time access they need to make their business better and speed your work as well. When everyone in your network can respond quickly with all the information they need, business runs better throughout your entire supply chain.

There is a better way.

At Infor, we work with a core belief. We believe in the customer. We believe that the customer is seeking a better, more collaborative relationship with its business software provider. And a new breed of business software: created for evolution, not revolution. Software that's simple to buy, easy to deploy and convenient to manage. Our 70,000 customers in more than 100 countries stand with us. We look forward to your sharing in the results of our belief. There is a better way. For additional information, visit www.infor.com.
