“ The Infor Services team is very efficient, knowledgeable and process driven which instils confidence. They ensured that the implementation was done in a very efficient manner. Infor Services went out of the way to provide global expertise and trained the local consultants too.”

Lindsay Gray, Asset Management Systems Officer, Palmerston North City Council

About the organization

Palmerston North City Council's vision is for Palmerston North to be recognized as a vibrant, caring, innovative, sustainable, and prosperous city. Sustainability is its main goal; creating a healthy environment that is clean and safe, a strong economy with lots of jobs, a caring community where people look after each other, and lots of leisure opportunities. To learn more, visit www.pncc.govt.nz.

Business case

- Modernize systems to keep up with technology and growing needs.
- Make reliable plans for scheduled maintenance and future asset replacement.
- Shift towards a web-based technology for ease of access and mobility.

Benefits

- Increased ease of use on tablets and other devices due to intuitive interface design.
- Allowed better decision making and maintenance and renewals with an accurate and complete pictures of asset condition.
- Enhanced data and increased cost-savings through web-based data input.
- Greater mobility leading to improved staff efficiency and data quality.
