Jaime López, IT director, Velatia

About the company

Tecnicapa, a Velatia company, designs, develops, and manufactures metallic components for clients in the computer science, aeronautics, and communications industries.

Challenges

- Reduce cost of outsourced preventive maintenance management.
- Expand outsourced preventive maintenance beyond breakdown resolution.
- Analyze, plan, and evaluate costs associated with maintenance tasks.
- Automate data entry and expand in scope beyond current system constraints.

Benefits

- Reduced the cost of external subcontracting by 25%.
- Decreased maintenance costs by 15%.
- Lowered plant energy cost by 30%.
- Improved global maintenance key indicators by 400%.
