Challenges

- Provide accurate, real-time data to all users through an integrated enterprise resource planning (ERP) system.
- Boost efficiency in the warehouse and in supply chain management.
- Deliver a flexible, robust, and scalable system that allows for future growth.

Benefits

- Realized \$300,000 in annual savings from lower warehouse equipment and labor costs.
- Significantly increased warehouse productivity by automating processes, including boxing, pick-to-light, and carousel functions, using out-of-the-box capabilities combined with changes tailored to Wolverton's business.
- Streamlined processes by integrating Infor Distribution A+ with the material control system, where orders are boxed, labeled, and fulfilled, and using Infor Distribution A+ to track the exact location of the box and the order in the system.
- Improved both customer service and third-party vendor relationships via accurate data and fast response.

"We needed an integrated, flexible, and scalable solution to streamline our warehouse processes and provide end-to-end supply chain management. To more efficiently manage our processes, we needed easy access to consistent data throughout the organization. Infor Distribution A+ was the best choice."
