be enterprising

Masterpiece FMS

Infor FMS Masterpiece is primarily suited for complex organizations and meets the management accounting and financial reporting requirements of a regional or head office within large, growing organizations. It is an integrated, enterprise wide solution to the challenges faced by companies that have undergone or anticipate changes to organizational structures and operational models resulting from organic growth, diversification or industry consolidation through mergers and acquisitions. Infor FMS Masterpiece is augmented by other Infor Global solutions to streamline financial process flows throughout the entire financial value chain to improve business-to-business, trade-related, transaction-based financial functions and processes – including sourcing, procurement and performance management.

Infor FMS Masterpiece combines enterprise financial functionality with a number of Infor Global solutions to provide a number of key features and benefits.

Effectiveness and efficiencies of financial operations and processes

- Enterprise-wide financial scope
- Reduced financial and operation transaction costs
- Standardized key processes and roles

Flexibility and compatibility of financial application deployment

- Multiple-language and currency support
- International legal compliance
- System integration and platform diversity

Control and visibility of financial performance

- Best practice planning, budgeting and forecasting
- Management reporting and performance analysis
- Financial consolidation, reporting and traceability

Masterpiece HCM

Infor HCM Masterpiece is a comprehensive solution for mid – large size organizations in North America providing full offerings of both core workforce management functionality as well as strategic talent and workforce development solutions that help to optimize their most valuable asset – their people.

Our HCM solution suite helps companies gain control and visibility of workforce performance, profit from more effective and efficient global operations and processes, and benefit from flexibility and compatibility of workforce application deployment.

Infor HCM Masterpiece is a complete, Internet-enabled human resources solution that addresses the full spectrum of workforce management and deployment issues and optimizes the entire recruit-to-retire business process for global organizations through accommodation of multiple languages, currencies, banks, tax definitions, benefits, security configurations, and platforms.

Designed to streamline workforce service delivery, development, and management and standardize processes across multiple organizations, countries, Infor HCM Masterpiece boosts your competitive advantage with functionality that covers all your workforce management requirements. Functionality includes:

Workforce Management

- Enterprise-wide workforce management scope from recruitment to retirement
- Secure, centralized databases for housing important employee data
- Standardized key processes and roles

Workforce Deployment

- Reduced Human Capital and operation transaction costs
- Management reporting and performance analysis
- Human Capital consolidation, reporting and traceability

Talent Management

- Multiple-language and currency support
- International legal compliance
- System integration and platform diversity

Learn More

Infor FMS Masterpiece is anchored on Infor's "enrich, extend, and evolve" product strategy and Infor Open SOA (service-oriented architecture). This means customers can expect Infor to make an ongoing investment in the business-specific capabilities they need to meet their diverse business challenges and ever-changing needs

Existing Customer

Our existing customers can always rely on Infor Global Support when they have issues requiring in-depth product expertise and quick turnaround. Our goal is to provide you with unparalleled service as measured by timeliness, efficiency, and professionalism—whether you have a single site or multiple sites; whether you are local, national, or global in scope; or whether you are a first-time user or a long-time user of our solutions.
