

CORPORATE FACT SHEET

About Infor

Infor® builds beautiful business applications with last mile functionality and scientific insights for select industries delivered as a cloud service. With 16,500 employees and 90,000 customers in more than 170 countries, Infor automates critical processes for industries, including healthcare, manufacturing, fashion, wholesale distribution, hospitality, retail, and public sector.

Infor’s software helps eliminate the need for costly customization through deep, embedded industry domain expertise. Headquartered in New York City, Infor is also home to one of the largest creative agencies in Manhattan, Hook & Loop, which is focused on delivering a user experience that is fun and engaging. Infor deploys its applications primarily on the Amazon® Web Services cloud and open source platforms.

Annual revenue

\$2.9 billion

Revenue by region

Redefining business software

Infor products mark the debut of an entirely new category of business software, conceived from today's flexible open standards and delivered through an agile, unbreakable architecture that gives customers the speed, freedom, and power they've always wanted—but couldn't get until now.

With the Infor suite, we're reimagining business software to change the way work is done in the industries we serve. We're building industry suites that deliver maximum value quickly, with features tailored to the specific needs of each industry.

By creating revolutionary, lightweight middleware technology, and new ways to implement and integrate business software, Infor helps companies leap over traditional application boundaries to improve performance and streamline workflow.
