# Same product, new name

## SyteLine versus CloudSuite Business and CloudSuite Industrial

With the 9.00.20 release, SyteLine was given a new name and became CloudSuite Industrial for manufacturing companies and CloudSuite Business for general business companies. It's the same great product, just with a different name. And the only difference between CloudSuite Industrial and CloudSuite Business is that in CloudSuite Industrial the manufacturing modules have higher visibility in the main menu whereas in CloudSuite Business the general business modules are the focus. This means that regardless of the product you own, our courses are built to teach you how to use the product.

## What version are the instructor-led courses taught in?

While our instructor-led courses are taught in the latest version of the product, our instructors accommodate people on ALL versions. So students on any version of the product are welcome to join and will be able to learn how to use the product in any of our of classes.

# At-a-Glance

## Consistent, Convenient, Cost Effective

With budgets tightly constrained, your organization may be like many others that are looking for cost effective ways to train employees without sacrificing learning quality. You can minimize training costs and maximize learning results with Infor Education Subscriptions—training in a self-paced learning environment. Best of all, this training service is delivered online from the convenience of your desktop, reducing the need to travel and spend time away from the office. For a low annual fee, your team receives access to all the SyteLine training resources published in the subscription, including:

- Recorded self-paced courses
- Live instructor-led courses

## Benefits

Infor's self-paced eLearning courses supplement the classroom experience. We provide online courses you can access from your desktop anytime, anywhere reducing your cost of travel.

**Offer training anytime, anywhere** – allowing employees to participate whenever it fits into their personal and work schedules

**Eliminate travel expenses**, instructor fees, and other costs related to conventional classroom training

**Develop functionally sound**, proficient users via courses focused on specific business needs

**Consistently deliver** the same experience to all users – nothing is lost or altered in knowledge transfer

# Subscription Content

## Subscription pricing

Tiered pricing makes our online subscription libraries affordable for any size organization, whether you have just a few users or thousands who could benefit from on-demand performance support. Subscription courses are licensed on a named user basis. A 'named user' is an individual authorized to access the course content at any given time and is not transferable.

## Training a la carte

- Customers not having a subscription can pay per day to attend public training classes
- Training can also be delivered as a private class to your employees virtually or in person

Are you wasting time reprinting invoices or vendor POs? Do you want an easy way to find the invoices you sent to your customers? In this webinar, Michael Huston, one of Infor's principal software engineers, shows you how to use Infor Document Management to: (1) Automatically attach the invoices you printed to customers and orders, (2) Automatically attach the POs you printed to vendor and orders, (3) Drag and drop other documents to CloudSuite Industrial or CloudSuite Business, (4) Quickly find attached documents, and (5) Automatically scan vendor invoices and begin the vouchering process. When you know these tips, you'll be able to spend less time looking for information and more time getting your job done. If you work in customer service, purchasing, accounting, or IT, you don't want to miss this seminar.	Global	USA
CloudSuite Business / CloudSuite Industrial: v9.01 Early-pay Discounts and Vouchers Payable Tips and Tricks (2017-08 Webinar)	This is a recording of a CloudSuite Tips webinar. Are you missing out on early-pay discounts? Is your vouchers payable function continually getting messed up? Do you find yourself having to manually add negative voucher journal entries to debit returns? If so, you will want to attend this webinar to learn two tricks to help you never miss an early-pay discount again and avoid a mess with vouchers payable. In this webinar Infor instructor Colleen Griffiths shows you (1) the easy trick to make sure you never miss out on an early-pay discount again, unless of course, you choose to do so, and (2) the simple method that many users miss that will help keep your vouchers payable correct, automatically create the debit for returns you have vouchered, and eliminate a number of unnecessary inventory adjustments in cycle counts and physical inventories. Knowing these two tricks will help you save your company money, while you also save yourself a lot of time and extra work.	Global	USA
