“We have been impressed with the first-class level of technical knowledge, experience, and ongoing level of customer support that E.Novation UK has brought to the project.”

—Iain Shannon, Service Delivery Manager,  
Steria

## About the organization

The Department of Health, Social Services and Public Safety DHSSPS is one of 11 Northern Ireland Departments and has three main business responsibilities: Health and Social Care (HSC), which includes policy and legislation for hospitals, family practitioner services, and community health and personal social services; Public Health, which covers policy, legislation, and administrative action to promote and protect the health and well-being of the population; and Public Safety, which covers policy and legislation for fire and rescue services. To learn more, visit [www.dhsspsni.gov.uk](http://www.dhsspsni.gov.uk).

## Challenges

- Provide an integrated solution for digital management of all radiology information and images throughout the public healthcare system of Northern Ireland.
- Share full patient radiology history at any time at the region's hospitals.
- Increase efficiency throughout the system.

## Benefits

- Ensured a seamless workflow of images and information between 27 hospitals performing more than 1.2 million examinations per year across the region.
- Permitted patient-related radiology data to be made available at the point of care regardless of patient location.
- Allowed procedures to be taken close to the patient's home and reviewed or read at any site.
- Increased efficiency by processing more information faster and at lower cost without compromising quality in patient care.

“This project is a unique large-scale deployment that is delivering considerable clinical benefits to the people of Northern Ireland. The proven functionality, reliability, and flexibility of the Infor Cloverleaf Integration Suite underpin the entire implementation.”

—Aidan Bennett, Regional Director,  
Sectra
