

Customer Snapshot

Infor EAM helps automotive parts manufacturer enhance maintenance

Facts at a glance

Solution: EAM

Product: Infor® EAM

Industry: Automotive manufacturing

Country: Argentina

Region: Latin America

“The business-specific capabilities built-into Infor EAM Enterprise Edition allow us to easily meet our customers’ quality requirements, as well as the strict regulations of the automotive industry.”

—Luis Marti, maintenance chief of plants,
Taranto

Challenges

- Address lack of visibility across the manufacturer’s maintenance operations.
- Optimize preventive maintenance strategy.
- Register all maintenance operations.
- Analyze historical maintenance data.

Benefits

- Created a comprehensive preventive maintenance strategy.
- Enhanced visibility across the manufacturer’s maintenance operations.
- Centralized way for employees to view repair records and modifications made to production tools throughout the enterprise.
- Registered all maintenance operations and analyzes historical data.

“My team implemented and migrated all data on time, thanks in large part to the automotive manufacturing-specific capabilities built into Infor EAM and the excellent support we received from Infor’s technical team.”

—José Luis Dalla Gassa, project leader,
Taranto
