

Infor Store Inventory Management

Run your stores more efficiently

With the retail industry's increasing emphasis on omni-channel systems, store inventory accuracy takes on a whole new level of importance. The more accurate your store inventory, the better you can serve today's demanding shoppers, while also gaining new insights into delivering a better omni-channel shopping experience. Infor® Store Inventory Management, part of the Infor Converged Commerce Suite, makes maintaining accurate store inventory a seamless extension of your retail workflow by delivering a process-oriented approach that engages customers and helps you process transactions.

Key benefits

By making store inventory data easier to collect and manage, Infor Store Inventory Management helps you eliminate the count discrepancies and out-of-stock issues that can frustrate shoppers and complicate merchandising strategies.

The result: Your stores can run more efficiently and profitably, and shoppers get the omni-channel shopping experience they expect.

With Infor Store Inventory Management, you can:

- Minimize stock count discrepancies to better synchronize omni-channel execution across all retail locations.
- Reduce out-of-stock scenarios that can disappoint customers.
- Integrate inventory counts into the store's everyday workflow.

Simplify your inventory management processes

With Infor Store Inventory Management, you get tools for:

- **Flexible receiving**—Recording of receipts at multiple levels, including each, cases, pallets, and cartons.
- **Store transfer creation**—Improve shipment accuracy by mandating scanning of items to be transferred.
- **In-store adjustments**—One process for all adjustment types, including reason codes.
- **Cycle counts and full physical inventory**—In-store validation of stock count results, with full store control of uploads.
- **Price change processing**—Simplified tools to help store personnel in staging and marking merchandise undergoing price changes.
- **An intuitive, streamlined user experience**—An easy-to-use mobile interface that reduces training time and simplifies associates' role in maintaining accurate inventory.

Create a seamless experience

With Infor Store Inventory Management, you can provide shoppers with immediate access to, or fulfillment of, merchandise from anywhere within your enterprise. In addition, Infor Store Inventory Management helps you simplify stock counts by using the mobile devices that your associates are already familiar with. That way, your store inventory management needs are transformed into a seamless extension of your existing retail workflow.
